DISCLAIMER: Any discussion of medical or legal issues in this publication is being provided for informational purposes only. Nothing in this publication is intended to constitute medical or legal advice, and it should not be construed as such. This book is not intended to be and should not be used as a substitute for specific medical or legal advice, since medical and legal opinions may only be given in response to inquiries regarding specific factual situations. If medical or legal advice is desired by the reader of this book, a medical doctor or attorney should be consulted. The use of trade names and commercial sources in this book does not imply endorsement by the American Public Health Association. The views expressed in the publications of the American Public Health Association are those of the contributors and do not necessarily reflect the views of the American Public Health Association, or its staff, advisory panels, officers, or members of the Association's Executive Board. While the publisher and contributors have used their best efforts in preparing this book, they make no representations with respect to the accuracy or completeness of the content. The findings and conclusions in this book are those of the contributors and do not necessarily represent the official positions of the institutions with which they are affiliated.
