

**AUTHORIZATION TO FILE DOCUMENTS INCORPORATED
BY REFERENCE BY DESCRIPTION**

Submit this form to request an exemption from the requirements of filing in full textual material adopted by reference into regulations. Questions, contact Office of the Registrar of Regulations.

① Agency: Virginia Department of Labor and Industry/Safety and Health Codes Board

② VAC Number/Chapter Title: 16VAC25-50

③ Effective Date of Final Regulation (leave blank for proposed stage):

④ Name of Document Incorporated by Reference (include edition or effective/revised date):
See attached list.

⑤ Summary or description of the document incorporated by reference:
The attached list includes the names of the documents to be incorporated by reference, as well as a description of each document.

⑥ Is a copy of the document incorporated by reference in custody of the agency and available to the public for inspection and copying as required by § 2.2-4103? YES NO

⑦ Document may be inspected at the following agency location:

Department of Labor and Industry
Main Street Centre, 600 East Main Street,
Suite 207
Richmond, Virginia 23219

Document may be obtained from the following entity (include website and cost of document):

See attached list.

⑧ Explain why it is impractical to file a copy of the document incorporated by reference:
These documents are voluminous (some are several volume sets), copyrighted, and expensive.

⑨ Attach a copy of the document cover, title page, and copyright page.

ASME CSD-1-2012
(Revision of ASME CSD-1-2009)

Controls and Safety Devices for Automatically Fired Boilers

AN AMERICAN NATIONAL STANDARD

**The American Society of
Mechanical Engineers**

Three Park Avenue • New York, NY • 10016 USA

5)

Date of Issuance: May 10, 2012

The next edition of this Standard is scheduled for publication in 2014.

ASME issues written replies to inquiries concerning interpretations of technical aspects of this Standard. Periodically certain actions of the ASME CSDAFB Committee may be published as Cases. Cases and interpretations are published on the ASME Web site under the Committee Pages at <http://cstools.asme.org/> as they are issued. Interpretations are also included with each edition.

Errata to codes and standards may be posted on the ASME Web site under the Committee Pages to provide corrections to incorrectly published items, or to correct typographical or grammatical errors in codes and standards. Such errata shall be used on the date posted.

The Committee Pages can be found at <http://cstools.asme.org/>. There is an option available to automatically receive an e-mail notification when errata are posted to a particular code or standard. This option can be found on the appropriate Committee Page after selecting "Errata" in the "Publication Information" section.

ASME is the registered trademark of The American Society of Mechanical Engineers.

This code or standard was developed under procedures accredited as meeting the criteria for American National Standards. The Standards Committee that approved the code or standard was balanced to assure that individuals from competent and concerned interests have had an opportunity to participate. The proposed code or standard was made available for public review and comment that provides an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not "approve," "rate," or "endorse" any item, construction, proprietary device, or activity.

ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor assumes any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representative(s) or person(s) affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

No part of this document may be reproduced in any form,
in an electronic retrieval system or otherwise,
without the prior written permission of the publisher.
