Note: Requesting organization must secure and retain the physician's signed authorization to obtain certification information. Organizations may not resell the ECFMG certification information or make it available to any party beyond this request as authorized by the physician. The information may only be used to confirm ECFMG certification for the purpose for which the physician provided authorization.

Physicians who are ECFMG-certified have passed the requisite medical science examination and English language proficiency test and had their medical education credentials verified by ECFMG. ECFMG certification is a prerequisite for entry into ACGME-accredited residency or fellowship programs in the United States; is required by most states for licensure to practice medicine in the United States; and is one of the eligibility requirements to take USMLE Step 3.
