6VAC20-30-60. Requirements for in-service training.

A. In-service training shall be provided under the authority of a certified academy. At the option of the certified academy, such training may be conducted by the main academy or at an approved satellite academy. The certified academy may conduct training at an offsite facility if the facility is approved and an academy staff member acts as the coordinator for the program. The academy director shall provide the department field coordinator the date, time, and location of such training at least seven days in advance of the program. Failure to provide such notification negates the training approval. All necessary records must be maintained and documentation kept on file in accordance with the certified academy policy. Roll call training shall not be approved for in-service training.

B. In-service training that is approved shall be subject to inspection and review by the department. The department may deny in-service credit for any training that is not in compliance with training standards.

Instructions for completing form:

The academy director shall designate in writing a Satellite Facility Training Coordinator for each satellite facility conducting mandated training. It shall be the responsibility of the above named coordinator to ensure that training is conducted in accordance with DCJS Academy recertification standards and the coordinator shall be present when training is conducted.

The academy director shall complete Table 1 for every satellite facility location and respond with a yes or no for all questions and subparts of the questions. A copy of the completed form shall be forwarded to a field representative for review prior to conducting a training or course. The academy director shall list all courses taught at the above location in Table 2.

Satellite Facility Worksheets shall be open to review and inspection by the Department.

Table 1

Satellite Facility Standards	Yes/No	Explanation
1. Is this facility currently on the list of approved satellite facilities provided to DCJS		
2. Does the facility have posted occupancy for each classroom based upon the standard of a minimum of 20 sq. feet of floor space per student?		
3. Are classroom conditions conducive to learning:		
a. lighting		
b. noise levels		
c. temperature		
d. adult size tables/desks and chairs		
4. Are first-aid and safety equipment on site?		
a. First aid kit		
b. Operating communication equipment		
Guidance on first-aid and safety: First aid kit must include at minimum bandages, gauze, tape, antiseptic. Communication equipment (e.g. including but not limited to telephones, mobile phones, hand held radios) shall be operable (e.g. mobile phone must have cell service, hand held must be charged or have working batteries) for the duration of the course or training.		
5. Does the facility have functioning restrooms readily available?		
6. Have all pertinent fire, health and building regulation inspections been reviewed to ensure they are current and the building is in compliance?		

Locations that do not comply with the requirements identified in Table 1 do not meet minimum satellite facility training standards and **shall not** be used to conduct mandated training.
